## SPECIAL EDITION Board Honors Faculty and Staff

The Board of Trustees recognized 176 members of the Coast District faculty and staff for long-standing service at a ceremony last Wednesday night, including Don Jeffries and Gerald Sjule, two OCC professors who have worked for the District for 40 years.

Sjule, Orange Coast College psychology professor and counselor, and Jeffries, a professor of mathematics and engineering at Orange Coast College, both began their career at Orange Coast College in 1962.

Coast District Board President Paul Berger expressed the Board's appreciation to Sjule and Jeffries for their longstanding service to the District and its students. He also thanked the many other outstanding employees honored at the annual ceremony.

"It is because of the employees in this District – faculty, staff and administrators – that Coast District students continue to receive a world-class education at an affordable price right here in their own backyard," Berger told a crowd gathered for the event. "There has never been a better word for thank you. You honor us by being here."
