**REQUEST FOR QUALIFICATIONS
RFQ NO. 007-03
GOLDEN WEST COLLEGE STRUCTURAL REPAIR OF SEVENTEEN BUILDINGS**

The Coast Community College District (the District) is inviting statements of qualifications from qualified firms, partnerships, and corporations to provide comprehensive professional structural engineering services and architectural services to the District for the Golden West College structural repair of seventeen buildings.

The District is engaged in ongoing new construction and major modernization projects, site development and planning, growth projects and area-wide planning associated with the recent passage of a local bond issue and State Bond. Using State Capital Outlay funds, the District will be repairing structural damage to eighteen buildings at Golden West College.

Proposals shall be delivered and addressed to the Coast Community College District, Physical Facilities Department, Building D, Attention: Ardith Richey, 1370 Adams Avenue, Costa Mesa, CA 92626 and shall be labeled: "~~RFQ No. 007-03 COAST COMMUNITY COLLEGE DISTRICT ADMINISTRATION BUILDINGS~~ RFQ No. 007-03 GOLDEN WEST COLLEGE STRUCTURAL REPAIR OF SEVENTEEN BUILDINGS." All statement of qualifications must be date/time stamped. Please send one (1) original and five (5) copies of requested materials. It is the responsibility of the Proposer to submit the response by the proper time. No oral, telegraphic, electronic, facsimile, or telephone statements will be considered. Proposals received after **December 10, 2003 4 p.m.** will not be considered and will be returned unopened.

**ALL RESPONSES MUST BE RECEIVED BY
DECEMBER 10, 2003 BEFORE 4 P.M.**

Questions regarding this RFQ may be directed to Ardith Richey at (714) 438-4673 or by email at arichey@mail.cccd.edu.

Sincerely,

COAST COMMUNITY COLLEGE DISTRICT

Ardith Richey, Physical Facilities Coordinator

SCOPE OF SERVICES

The District is seeking a Structural Engineering/Architectural team to provide professional design services for the Golden West College Structural Repair of seventeen campus buildings. The Structural Engineering/Architectural firm shall, without limitation to the District's right to require other services not listed herein, carry out the responsibilities delineated in the scope of services set forth below. Such services shall be performed, consistent with the highest standard care for professionals performing similar scopes of services.

The Structural Engineering/Architectural firm shall, as a minimum, undertake the following responsibilities, and any additional responsibilities reasonably necessary and customarily provided by Structural Engineering/Architectural firm conducting business in the Southern California area, to ensure that all Coast Community College District Bond and State Bond Program and project goals, standards, policies and procedures are adhered to over the course of the project.

The Structural Engineering/Architectural Services are governed by the terms and conditions of the CCCD Standard Consultant and/or Architectural Agreement (www.cccd.edu/facilities/documents.htm) and include, but are not limited to, the following:

1. Review existing building drawings and utilize the documents as the basis for design and repair.
2. Review and validate existing conditions at the proposed site and utilize it in the preparation of the design/repair documents.
3. Review program standards, policies and procedures included in the State Proposition 47 Bond and Final Project Proposal for this project. Prepare the design documents in accordance with the Consultant Agreement and/or Architectural Agreement.
4. The basic design phase services to be provided shall include: Engineering/Design Development, Construction Documents, Bid Phase support, and Construction Administration support.
5. Basic repair design phase services for this project, as noted in the attached Fee Guidelines, include the following disciplines: Structural, Civil and Architectural as necessary.
6. At conclusion of all design phases, required deliverables shall include but may not be limited to the following: drawings, specifications, basis of design report, and cost estimates. Submit progress updates of repair design documents for review as requested by the Physical Facilities Coordinator.
7. Initiate and participate in discussions with the CCCD and Golden West College Facility teams and local, state, and federal agencies, relevant District building user groups, utility providers, the Board of Trustees and community groups regarding this project as required.
8. Prepare and coordinate repair design phase meetings with Campus user groups, other District representatives, the District Project Manager and contractors. Attend project

- meetings as requested through bidding, award and construction, closeout and post-occupancy phases of the project, as required.
9. Prepare and distribute meeting minutes of all meetings held with the Campus, the District Project Manager, the District Physical Facilities Coordinator or governmental agencies.
 10. Submit repair design documents to District Physical Facilities Coordinator, District Project Manager, Division of the State Architect and other government entities and/or utility providers as required for plan checks and approvals required under State Proposition 47 bond guidelines.
 11. Assist CCCD Facilities Team in Bid Phase by preparing addenda and other documents as required.
 12. Prepare a detailed workplan indicating required and recommended meetings, milestones, deliverables and submittals, review timeframes, and critical actions or decisions required of the District or Project Manager. Make modifications and updates to the workplan as requested by the District Project Manager.

The repair design of the facility and site shall meet all requirements of the applicable jurisdictions, codes and regulations, such as those of the Division of State Architect (DSA), State Fire Marshal, City of Huntington Beach, State of California Building Code, Americans with Disabilities Act and others, as required.

The Structural Engineer/Architect shall work closely and in cooperation with Golden West College Program Team staff, including Project Managers and the District staff, and shall be readily accessible at all times for review and coordination with the Bond Program Team staff.

REQUIRED INFORMATION AND FORMAT

In order to be considered for selection as an “Structural Engineering/Architectural Services consultant” for Coast Community College District, the respondent individuals, firm or firms shall submit a Statement of Qualifications (SOQ), and using as a minimum the following criteria, the individual or firm(s) should state why it believes it is qualified to provide the services requested in this RFQ. Provide in the SOQ the following items in the specified order:

1. Letter of Introduction
 - a. Provide a letter of introduction signed by an authorized officer of the organization.
 - b. If submitting as a team, note which team is the prime consultant or lead joint venture partner (if applicable).
 - c. Note individual leading the “Architectural / Engineering Services” team.
2. Firm Information
 - a. Type of organization or company structure.
 - b. Certification that the “Architectural/Engineering Services” firm is legally permitted or licensed to conduct business in the State of California for the services offered.

- c. Number of years the firm has been in business.
 - d. Location of principal office that will be responsible for the implementation of this contract.
 - e. Litigation: The firm or firms must have an acceptable history of working proactively to avoid litigation. Provide specific information on termination for default, litigation settled or judgments entered within the last five (5) years, and civil judgments or criminal convictions for false claims within the last five (5) years.
 - f. List company or individual team members experience in providing same services. Include name of projects, client, city, and state.
 - g. Provide a list of at least 3 references; name of organization, job title, addresses, and phone numbers.
3. Project Team Qualifications
- a. Identify the following key members within the firm and provide their resumes with qualifications especially as it relates to upper division school projects:
 - 1. Principal-in-Charge
 - 2. Project Manager
 - 3. Cost Estimator
 - 4. Project DSA Leader
 - b. Identify any proposed consultants, such as civil, structural, mechanical, electrical engineers and any other relevant disciplines for this project. List license numbers and dates as well as business address, phone number and fax number. Include resumes and related experiences for appropriate members of these firms.
4. Firm Resources
- a. Provide a statement demonstrating your firm's or team's ability to accomplish the scope of services in comprehensive and thorough manner with an aggressive schedule in order to meet a client's goal of moving projects into construction within the earliest possible timeframe, in compliance with CEQA.
 - b. Explain the firm's design capabilities as they relate to:
 - 1. Design philosophy and process
 - 2. Integration of flexibility and future technology into the design.
 - 3. Work plan with the current workload and next six-month backlog and available staffing plan.
 - c. Explain the firm's technical capabilities in the following areas:
 - 1. CAD capability and software proposed to be used to produce the deliverables for the project; and the ability to provide the District with electronic CAD files.

2. Cost estimate history, comparing cost estimates versus actual bid amount on three school projects awarded in last five years.
3. Quality control / assurance procedures, including coordination of design disciplines, complying with program requirements and conformance with Federal/State/Local applicable code requirements.
4. Experience in repair of reinforced concrete structures with lost strength as a result of corrosion of the reinforcing steel. Experience should include:
 - a. Selection of the proper repair materials as related to site conditions, exposure conditions, and use of the structure.
 - b. The use of proper repair procedures, such as substrate preparation, parching and resurfacing, waterproofing, corrosion protection, repair of cracks, as well as prevention, protection and maintenance of concrete structures.
 - c. Preparation of testing criteria and specifications, both during the design and construction phase.
5. Experience working with State/Local agencies, including Department of State Architect, City Public Works and Fire Departments.
6. Experience with upper division educational facility design.

5. Financial Statement

- a. Provide credit references.
- b. Provide relevant information regarding the firm(s) stability and strength.
- c. Provide a copy of the financial statement of profit/loss for the last two years in a sealed envelope.

SUBMITTAL REQUIREMENTS

The individual or official of the firm who has the power to bind the firm contractually must sign the SOQ.

The SOQ preparation and associated direct costs are the sole responsibility of the Consultant and will not be reimbursed by the District.

Five (5) copies of the SOQ shall be submitted. Each submittal shall not contain more than thirty (30) pages, excluding front, back covers and tabs. Submittals containing more than thirty (30) single sided pages or fifteen (15) double sided pages will not be considered.

G. BASIS OF AWARD

The SOQs will be evaluated based on each firm's qualifications and relevant experience with similar work. All SOQs will be evaluated by the District and Golden West College Facilities Team.

FEE

Following the qualifications-based selection process, fees will be determined based on CCCD Fee Guidelines and negotiated. If fee negotiations with any firm deemed most qualified for the project, based on the firm(s) SOQ and interview, are not successful, the District will seek to negotiate and execute a contract with the next qualified firm.

OUTREACH

The Board of Trustees recognizes the importance of promoting economic growth in the communities it serves and therefore encourages the involvement of small and emerging businesses in every aspect of the execution of all services for State Capital Bond and Measure C Bond Project work covered by this RFQ.

EVALUATION & ACCEPTANCE OF SOQ

The District reserves the right to reject any and all SOQs, to amend the RFQ and the RFQ process, and to discontinue or re-open the process at any time.

NON-LIABILITY OF DISTRICT

The District shall not be liable to the Consultant for personal injury or property damage sustained in the performance of these services, however caused.

INDEMNIFICATION

1. To the fullest extent permitted by law, engineer/architect agrees to indemnify, defend and hold District, its board of trustees, officers, employees, and agents entirely harmless from all liability: on account of any and all claims under workers' compensation acts and other employee benefit acts with respect to Engineer/architect's employees or Engineer/engineer/architect's consultants, engineers and subcontractors' employees arising out of Engineer/engineer/architect's work under this Agreement; and on account of any and all claims for damages because of personal injury or death or damage to property, or other costs and charges arising out of or attributable to, in whole or in part, Engineer/architect's breach of the Agreement, negligent acts, errors and/or omissions in the performance of Engineer/architect's obligations as stated in this Agreement, or the negligent acts, errors, and/or omissions of Engineer/architect's consultants, engineers, subcontractors' employees, or agents in the performance of their obligations as stated in this Agreement. The coverages of such indemnification shall include, without limitation, reasonable attorneys' fees and court costs incurred by District with regard thereto. Said indemnity is intended to apply during the period of this Agreement of Engineer/architect's performance and shall survive the expiration or termination of this

Agreement until such time as any action against District on account of any matter covered by such waiver or indemnity is barred by the applicable Statute of Limitations.

2. The indemnification obligations under this Article shall not be limited by any assertion or finding that (1) the person or entity indemnified is liable by reason of non-delegable duty, or (2) the losses were caused in part by the negligence of, breach of contract by, or violation of law by District. The obligation to defend shall arise regardless of any claim or assertion that District caused or contributed to the losses. Engineer/architect's reasonable defense costs (including attorney and expert fees) incurred in providing a defense for District shall be reimbursed by District except to the extent such defense costs arise, under principles of comparative fault, from Engineer/architect's (a) negligent acts or omissions; (b) breach of any of the provisions of this Agreement; or (c) willful misconduct.
3. Engineer/Architect shall indemnify, defend, and hold harmless District from and against all loss, cost, expense, royalties, claims for damages or liability, in law or in equity, including, without limitation, attorneys' fees, court costs, and other litigation expenses that may at any time arise or be set up for any infringement (or alleged infringement) of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by District of the design or construction documents (including any method, process, product, concept specified, or depicted) supplied by Engineer/Architect in the performance of this Agreement.
4. Review, approve or acceptance of engineer/architect's work whether by District or others and whether during Schematic Design Phase, Design Development Phase, Construction Documents Phase, Bidding Phase, Construction Phase, Guarantee to Repair Period, or otherwise, shall not relieve engineer/architect from responsibility for errors and omissions in Engineer/architect's work.
5. Nothing in this Agreement, including the provisions of this Article, shall constitute a waiver or limitation of any rights which District may have under applicable law, including without limitation, the right to implied indemnity.
6. Engineer/Architect shall purchase and maintain with an insurer or insurers qualified to do business in the State of California and acceptable to District policies of insurance which will protect Engineer/Architect and District from claims which may arise out of or result from Engineer/architect's actions or inactions relating to the Agreement, whether such be by itself or by any subcontractor or by anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable. The aforementioned insurance shall include coverage for:

Worker's Compensation and Employers' Liability Insurance covering all personnel employed on the premises during the term of the agreement whether said personnel is employed by engineer/architect or supplied by persons or entities other than the District in the amounts required by law.

Comprehensive General and Auto Liability Insurance with limits of not less than \$1,000,000 combined single limit, bodily injury and property damage liability per occurrence with no annual aggregate limits, including:

Owned, Non-owned and Hired Vehicles

Blanket Contractual

Broad Form Property Damage

Products/Completed Operations

Personal Injury

Professional Liability insurance, including Contractual Liability, with limits of \$1,000,000. Such insurance shall be maintained during the term of this Agreement and renewed for a period of at least five (5) years thereafter if available to the professional and/or at rates consistent with the time of execution of this Agreement adjusted for inflation. In the event that engineer/architect subcontracts or assigns any portion of its duties, it shall require any such subcontractor to purchase and maintain insurance coverage as provided in this subparagraph.

The policy(s) of insurance required in 8 (b) above, shall name District and its trustees, officers, agents, and employees as additional insureds; shall state that, with respect to the operations of engineer/architect hereunder, such policy is primary and any insurance carried by District is excess and non-contributing with such primary insurance, shall state that not less than thirty (30) days' written notice shall be given to District prior to cancellation, and shall waive all rights of subrogation against the District and its trustees, officers, agents, and employees. Engineer/architect's shall notify District in the event of material change in, or failure to renew, each policy. Prior to commencing work, engineer/architect shall deliver to District certificates of insurance and additional insured endorsements as evidence of compliance with the requirements herein. In the event engineer/architect fails to secure or maintain any policy of insurance required, District may, at its sole discretion, secure such policy of insurance in the name of and for the account of engineer/architect and in such event engineer/architect shall reimburse District upon demand for the cost thereof.

COAST COMMUNITY COLLEGE DISTRICT
Golden West College Structural Repair of Seventeen Buildings
RFQ No. 007-03

PROJECT DESCRIPTION

Surrounding Area

Golden West College is located at 15744 Golden West Street, Huntington Beach, CA. The campus boundaries are Golden West Street (West), Edinger Avenue (South), Gothard Street (East) and McFadden (North). Golden West College is located one mile south of the 405 Freeway.

Project Site

The structural repair project affects seventeen (17) campus buildings. Buildings needing some type of repair include:

Math & Science	Forum One	Business/Social Science
Administration	Communication	Music
Library M/M Center	Fine Arts + App. Arts	Men's Physical Education
Women's Phy. Ed.	Cosmetology	Telecommunication/Forum
PE/Rec	Technology	Theater
College Bookstore	Student Center	

Project Description

- This project includes the structural repair of seventeen campus buildings. The repair method may vary with each building. The problems to be repaired include, but are not limited to, the following:

- Column and beam repair for evidence of corrosion of reinforcing steel
- Column and beam repair for superficial concrete spalling
- Column and beam repair for severe rusting and deterioration
- Scupper replacement
- Guardrail embed replacement

This project will require approval by the Division of State Architect. The District will provide geotechnical services and topographical survey for the project. (See Attachment A for site map.)
