

# LONDON 07: WHAT STUDENTS SAID -

Abandon all reservations you have and dive in!  
London is a fascinating place filled with fascinating people. The program was well worth the price.

I learned so much on this trip both about London & History, but also about my perspective on life, what I want, and my attitude towards life. I feel I am more substantial in my interests & outlooks which is odd to claim after only a month, but true.

Great class, wonderful teacher,  
amazing place, good people,  
what more could you ask  
for? ☺

I enjoyed exploring London with my roommate who I became very close with.

This was an amazing experience and I will never forget it. I thought I would be homesick but now London has become my home and I don't want to leave ☺

Even in a month there is so much of London I still want to see!

Take a chance. Do something like a study abroad program to see something different and experience a new thing in life before your chance gets taken away. Once you do it, your perspective in life will change forever also you'll appreciate the life you had or know there's actually other worlds than just yours alone.

I was extremely impressed w/ the accommodations. In Paris I had stayed in dorms. The apartments were 100x better than the dorms. It was great having your own bathroom, kitchen, living room, ect.

This was the best experience of my life,  
And I am only sad because it is too short.  
I am not ready to go home.

I liked the centrality of the flats. I was within walking distance or a short tube ride from all the sites and museum I wanted to see. The city was closely accessible to me.

I also loved taking the class. It gave me a sense of purpose for being in the city. I felt more like I belonged in the city and like I was a part of it because I was taking a class.

Thanks, Moore, for making it happen!

Prof. Moore did an EXCELLENT job and I really appreciate all of his hard work and dedication. His passion for the art of teaching and for London made this experience that much better!
